

Junior Golf Clinic

CN Future Links Mobile Van Clinic at Sturgeon Point Golf Course

May 17th 9:30-12
Sturgeon Point Golf Course driving range

CN Future Links junior golf programs help young golfers develop the technical skills, appropriate attitude and self-confidence to succeed on the course while teaching them positive life lessons to succeed off the course. Through these programs, young girls and boys learn integrity, honesty, sportsmanship and responsibility.

Cuyler Hedley Marion of the Golf Association of Ontario will take kids aged 6-18 through chipping, putting and long game instruction on Sturgeon Point Golf Course's full practice facility.

CN Future Links programs are developed for players from beginner to advanced and a great way to get your kids started at understanding and enjoying the game of golf.

The program is offered **FREE** by the Golf Association of Ontario and will be followed by pizza for participants.

Please contact Chris Van Lierop, spgcniorclinic@gmail.com to register. We have just confirmed the program for the long weekend and all young golfers are welcome.

We can't wait to get your kids out on the golf course!
